

When To Use A Notification System

Your emergency notification system can be used for more than just emergencies. The system is designed to be a two-way communication tool used by multiple departments and agencies for a variety of notification. **Inbound calling capabilities, social media integration and survey response** all make two-way communication possible.

Employee & Staff Applications

- Employee notification
- Employee accountability
- Routine group notifications
- Office closings & modified business hours
- Meeting & training reminders
- Benefit enrollment information & deadlines
- Schedule changes
- System outages / computer virus threats
- Assemble & deploy emergency response teams
- Call in additional staff
- Announce events
- Issue important reminders

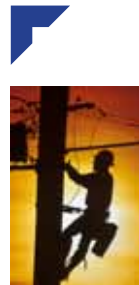

Municipality Applications

- Street closings
- Tax deadline reminders
- Past due tax payment notices
- Past due traffic tickets notices
- Court date reminders
- Town Hall / City Council meeting reminders
